

SCTR's Pune Institute of Computer Technology,
Dhankawadi, Pune - 411043
Department of Computer Engineering

Subject: Web Technology Lab (310257)

Academic Year: 2025-26

Class: TE

Semester: II

Schedule of Lab Experiments

Sr No.	Name of assignment	Last date of Completion												
1	<p>Case study: Visit various websites available online for different client projects, identify and note down the evaluation results in following format and note down and learn and conclude different website design issues that should be considered while designing a web site..</p> <table><tr><th>Sr No.</th><th>Website URL</th><th>Purpose of website</th><th>Tings liked in the website</th><th>Tings dis liked in the website</th><th>overall evaluation (Good/Bad)</th></tr><tr><td></td><td></td><td></td><td></td><td></td><td></td></tr></table>	Sr No.	Website URL	Purpose of website	Tings liked in the website	Tings dis liked in the website	overall evaluation (Good/Bad)							1 st week of Jan 26
Sr No.	Website URL	Purpose of website	Tings liked in the website	Tings dis liked in the website	overall evaluation (Good/Bad)									
2	<p>Implement a web page index.htm for any client website (e.g., a restaurant website project) using following:</p> <ul style="list-style-type: none">a. HTML syntax: heading tags, basic tags and attributes, frames, tables, images, lists, links for text and images, forms etc.b. Use of Internal CSS, Inline CSS, External CSS	2 nd week of Jan 26												
3	<p>Implement an application in Java Script using following:</p> <ul style="list-style-type: none">a) Design UI of application using HTML, CSS etc.b) Include Java script validationc) Use of prompt and alert window using Java Script <p>e.g., Design and implement a simple calculator using Java Script for operations like addition, multiplication, subtraction, division, square of number etc.</p> <ul style="list-style-type: none">a) Design calculator interface like text field for input and output, buttons for numbers and operators etc.b) Validate input valuesc) Promnt/alerts for invalid values etc.	3 rd week of Jan 26												
4	<p>Design the XML document to store the information of the employees of any business organization and demonstrate the use of:</p> <ul style="list-style-type: none">a) DTDb) XML Schema	4 th week of Jan 26												

	And display the content in (e.g., tabular format) by using CSS/XSL.	
5	Implement the sample program demonstrating the use of Servlet. e.g., Create a database table ebookshop (book_id, book_title, book_author, book_price, quantity) using database like Oracle/MySQL etc. and display (use SQL select query) the table content using servlet.	1 st week of Feb 26
6	Implement the program demonstrating the use of JSP. e.g., Create a database table students_info (stud_id, stud_name, class, division, city) using database like Oracle/MySQL etc. and display (use SQL select query) the table content using JSP.	2 nd week of Feb 26
7	Build a dynamic web application using PHP and MySQL. a. Create database tables in MySQL and create connection with PHP. b. Create the add, update, delete and retrieve functions in the PHP web app interacting with MySQL database	3 rd week of Feb 26
8	Design a login page with entries for name, mobile number email id and login button. Use struts and perform following validations a. Validation for correct names b. Validation for mobile numbers c. Validation for email id d. Validation if no entered any value e. Re-display for wrongly entered values with message f. Congratulations and welcome page upon successful entries	1 st week of March 26
9	Design an application using Angular JS. e.g., Design registration (first name, last name, username, password) and login page using Angular JS.	2 nd week of March 26
10	Design and implement a business interface with necessary business logic for any web application using EJB. e.g., Design and implement the web application logic for deposit and withdraw amount transactions using EJB.	3 rd week of March 26
11	Mini Project: Design and implement a dynamic web application for any business functionality by using web development technologies that you have learnt in the above given assignments.	1 st week of April 26

Prof. Parag J. Jambhulkar
Subject Coordinator

Dr. B. A. Sonkamble
Head, Dept. of Comp. Engg.

Savitribai Phule Pune University
Third Year of Computer Engineering (2019 Course)
310257:Web Technology Laboratory

Teaching Scheme Practical: 02 Hours/Week

Credit: 01

Examination Scheme and Marks Term Work: 25 Marks
Oral: 25 Marks

Companion Course : Web Technology (310252)

Course Objectives:

- To learn the web based development environment
- To use client side and server side web technologies
- To design and develop web applications using front end technologies and backend databases

Course Outcomes:

On completion of the course, learners will be able to

CO1: Understand the importance of website planning and website design issues

CO2: Apply the client side and server side technologies for web application development

CO3: Analyze the web technology languages, frameworks and services

CO4: Create three tier web based applications
